# How becoming a Team of Teams® leads to uncompromising results

Team of Teams® was born out of extreme necessity.

Confronted by threats for which his organization was unprepared, General Stan McChrystal had to radically transform it without compromising mission objectives.

So instead of optimizing how the organization worked, he optimized how it worked together.

The result was Team of Teams®—an operational discipline that defeated an international terrorist network and has since fueled astonishing breakthroughs for 100+ organizations across industries.
